COSI MUSEUM

COLUMBUS, OHIO SCIENCE MUSEUM IS GOING ATOMIC. Renovation begins September of 2008 at the end of High Season for the Museum. The Atomic Café will service daily museum customers and large event gatherings for business and personal festivities.

Future Green Roof Conceptual Designs

The Design Team proposed a covered courtyard for expanded seating and grass top views across the Columbus, Ohio's River Front.

Project InSight:

COSI Museum Café goes Atomic. InSight has been engaged with Sodexo's Entertainment Division. Lead by Eric Loyall, in designing new and existing cafes at Zoo Atlanta, Houston Zoo, Virginia Beach Aquarium, North Carolina Zoo, Children's Museum of Indianapolis, and now the COSI Museum Atomic Café. Introduced into the Café are Atom shaped adult and child combined seating areas, kiosks, a new service line design to improve customer flow, and a proposed outdoor seating pavilion for year round dining experience. Designs were developed in Google Sketch-Up parallel to Bentley's Microstation V8 with a team of A. Richard Bunn, AIA, Whitney Golly, Stephanie Martinez, and Andrea Ray.

LET INSIGHT BRING OUR TALENTS AND OUR EXPERIENCE TO YOUR NEXT PROJECT
